[The Master and His Emissary - Wikipedia](#)

[The Master and His Emissary: The Divided Brain and the Making of the Western World](#) is a 2009 book written by Iain McGilchrist that deals with the specialist hemispheric functioning of the brain. The differing world views of the right and left brain have, according to the author, shaped Western culture since the time of the ancient Greek philosopher Plato, and the growing conflict between these views has implications for the way the modern world is changing. In part, McGilchrist's book, which is [The Master and His Emissary: The Divided Brain ... - Amazon](#)

However it turns out that the emissary has his own will, and secretly believes himself to be superior to the Master. And he has the means to betray him. What he doesn't realize is that in doing so he will also betray himself. The book begins by looking at the structure and function of the brain, and at the differences between the hemispheres, not only in attention and flexibility, but in

I was compelled to read [The Master and His Emissary](#) after listening to the author give the annual Laing Lecture Series at Regent College this Spring. Spending 3 hours listening to that series will give you a much faster overview of his thesis in M&E and a good sense of his main ideas, but the book itself is worth the read if you're up for it.
